

A Getting started / core workflows

T01 Hello, deep time	T02 GPlates Web Service	T03 Projection cookbook	T04 Plate model comparison	T05 Rotation model comparison	T06 Plate motion animation	T07 Interactive paleogeog. reconstr.
--------------------------------	-----------------------------------	-----------------------------------	--------------------------------------	---	--------------------------------------	--

B Plate kinematics + tectonics

T08 Plate tectonic diagnostics	T09 Age of subd. crust	T10 Paleo-bathymetry profile	T11 Paleo-strain rates	T12 Paleo-LAB retro-deformation	T13 Paleo-SHmax subduction	T14 Rift obliquity	T15 Kinematic feature extraction	T16 Subducted-slab flux
--	----------------------------------	--	----------------------------------	---	--------------------------------------	------------------------------	--	-----------------------------------

C Plate-model debugging

T17 Div. + convergence anomalies	T18 MOR velocity magnitude	T19 Topology construction anomalies	T20 SZ feature extract-ability
--	--------------------------------------	---	--

D Zircons + tectonic-setting predictors

T21 Detrital zircons	T22 Igneous zircons	T23 Meta-morphic zircons	T24 Dist. to subduction	T25 Hf-Nd terrane mapping
--------------------------------	-------------------------------	------------------------------------	-----------------------------------	-------------------------------------

E Mantle dynamics + dynamic topography

T26 REVEAL tomography slices	T27 REVEAL plume cross-sect.	T28 Mantle transect deep time	T29 DT cluster histories	T30 DT vs sediment	T31 DT change deep time	T32 Mantle→plate frame conversion
--	--	---	------------------------------------	------------------------------	-----------------------------------	---

F Paleomagnetism

T33 Paleomag. reference frame	T34 Frame comparison	T35 Plate/mantle frame uncertainty	T36 Continent reconstr. (gplately)	T37 APWP vs gplately site	T38 Osler 1.1 Ga	T39 Phaner. APWP on Laurentia	T40 SVEI shallowing	T41 Rotated poles	T42 TPW decomp.	T43 Paleolat. reverse reconstr.
---	--------------------------------	--	--	-------------------------------------	----------------------------	---	-------------------------------	-----------------------------	---------------------------	---

G Paleo-geography + paleo-topography

T44 Geochem-corrected paleo-elev	T45 Macrostrat Great Unconf.	T46 Highland footprints	T47 C. Asia thermo-chron.	T48 Cooling × Earth-system	T49 Cooling × kinematics × faults	T50 Cooling-rate correl.	T51 N. America thermo-chron.	T52 Ophiolite paleo-map
--	--	-----------------------------------	-------------------------------------	--------------------------------------	---	------------------------------------	--	-----------------------------------

H Sedimentary basins

T53 Global basins ICONS	T54 Crustal stretching factor β	T55 Individual rift analysis
-----------------------------------	---	--

I Paleobiogeography

T56 PBDB × Macrostrat paleo-litho	T57 Reef builders paleolat	T58 Kimmer. dinos	T59 Cenozoic forams	T60 PBDB paleobio-geography	T61 H3 bio-regional-isation
---	--------------------------------------	-----------------------------	-------------------------------	---------------------------------------	---------------------------------------

J Paleoclimate

T62 Boucot climate lithos	T63 Plant-fossil paleoclim. (Xu/Mills)	T64 Deep-time paleoclim. snapshots	T65 cGENIE SST vs proxies	T66 PLASIM CO2 sensitivity	T67 pySCION Phanerozoic	T68 Ref-frame paleoclim.	T69 Ocean gateways vs frame	T70 Multi-study GMST	T71 Proxy validation of frames	T72 Carbonate platform degassing
-------------------------------------	--	--	-------------------------------------	--------------------------------------	-----------------------------------	------------------------------------	---------------------------------------	--------------------------------	--	--

K Mineral exploration

T73 SW-Pacific porphyries	T74 Global porphyry envelope	T75 Seafloor anomalies	T76 Sediment-hosted Cu	T77 Porphyry-Cu deep-time trajectories	T78 Continent prospectivity maps	T79 Manganese 1.8 Ga paleogeo	T80 Craton boundary framework
-------------------------------------	--	----------------------------------	----------------------------------	--	--	---	---
